

# **TURBOGRANTS™**

## NEMA Resilience Committee Presentation

**Bryan Koon**  
Chair, TurboGrants™ Advisory Board  
President and CEO, IEM

**Jiqiu Yuan**  
Staff Lead, TurboGrants™ Advisory Board  
Chief Resilience Officer, NIBS

**Russell Strickland**  
Vice Chair, TurboGrants™ Advisory Board  
Secretary, Maryland Department of  
Emergency Management

Billions of dollars have been allocated across federal agencies to address the devastating effects of more frequent and severe weather events. However, many local and state governments struggle to efficiently access and use mitigation grant funds to build resilience.

U.S. disaster losses are growing 6% per year, 10 times faster than population, twice as fast as gross domestic product.

# Why TurboGrants™?

NIBS asked over 400 emergency managers, state agency representatives, and other stakeholders about the difficulties they encounter when searching for federal funding resources. Respondents identified the following top challenges:

47%

Technical challenges like conducting a required BCA

37%

Don't have the time or resources to pursue

33%

Cannot find a match for grants requiring cost shares or matches

31%

Grant deadlines do not coincide with project

# The Solution: TurboGrants™

TurboGrants is an innovative platform designed to streamline the grant identification process by using technology to match applicants' needs with suitable resources and offer enhanced technical assistance to accelerate resilience-building initiatives.

# TurboGrants™ Objectives

Match SLTTs with funding opportunities across all hazards and grants available across all federal agencies

Simplify, integrate, and collaborate with existing mitigation tools

Support Justice 40, Community Disaster Resilience Zones, and other equity initiatives

Build capacity, training, and 24/7 technical support

# TurboGrants™ Framework

SLTTs can enter project details into the TurboGrants™ search engine to be matched with grants that meet their exact needs.

**What is CDRZ?**  
The Community Disaster Resilience Zones Act was signed into law by President Joe Biden on December 20, 2022. Using the National Risk Index's datasets, FEMA has identified the most at-risk and in-need communities to create resilience zones. These designated zones will provide geographic focus for financial and technical assistance from public, private and philanthropic agencies and organizations for the planning and implementation of resilience projects. [Learn more](#)

How would you categorize yourself as a grant applicant?  
Community

Is your community a Community Disaster Resilience Zone (CDRZ)? \*

Yes  
 No  
 Not sure
