

The Emergency Management Assistance Compact (EMAC), is a state-to-state mutual aid agreement that facilitates the sharing of services, personnel, equipment, and commodities across state lines during times of emergency and disaster.

Goals

- > Promote a better understanding of EMAC for multidiscipline emergency response and recovery entities and mutual aid partners
- > Create a forum for mutual aid stakeholders to provide input and feedback to NEMA for enhancement of mutual aid through EMAC
- > Advance inter- and intrastate mutual aid

History

The Emergency Management Assistance Compact's Advisory Group was organized in August 2006 because of lessons learned from Hurricane Katrina. The aftermath of the catastrophic natural disaster made clear the need for education and training on the EMAC system and process as well as the need for a more formalized relationship and regular communication with mutual aid stakeholders.

The EMAC Advisory Group is made up of invited representatives from national organizations of the first-responder community and other mutual aid stakeholders. The Advisory Group meets twice annually. NEMA reimburses Advisory Group members for associated travel costs

Member Roles & Responsibilities

- > Represent the issues, positions, resource capabilities, and requirements of the respective disciplines and national organizations
- > Share information with national memberships, solicit feedback, and provide responses to NEMA on EMAC-related issues
- > Facilitate outreach, education, and training opportunities on EMAC
- > Share situational awareness information with national memberships, organizations, and agencies during major EMAC activities, as necessary and appropriate
- > Participate in conference calls, meetings, and after-action reviews on behalf of national memberships
- > Identify and share best practices. Identify emerging issues that impact the development of EMAC
- > Provide a connection between other mutual aid providers and EMAC
- > Gather and share information. Network in the states to pre-plan for EMAC deployments
- > Promote the development of Mission Ready Packages

Member Organizations
